

Dear Health Care Professional,

The BorgWarner member you are seeing today is visiting you for routine, wellness services. This wellness visit is an important part of the BorgWarner Health Care Program.

These wellness visits can include a preventive exam, well-woman exam, mammogram and colon cancer screenings.

Please ensure that wellness procedure codes and wellness diagnosis codes are used when Cigna is billed. If they are not, the member may not receive credit for completing their preventive exams and screenings.

If you have any questions about this, please call Cigna Customer Service at 1-800-237-2904.

You can also visit the Cigna for Health Care Professionals website, www.cignaforhcp.com. There, under Resources, you can search 'Wellness' for more information.

Thank you,

BorgWarner
