

# Spec it Right: Kenworth

### 28SI™

- Output: 12 Volts 200 Amps 140 Amps at idle
- Dual Internal Fans: Provides maximum cooling
- Remote Sense: Drastically reduce battery charge time
- Warranty: 2 years/250,000 miles

#### 36SI™

- Output: 12 Volts 160/165 Amps 100 Amps at idle
- Highest output at low RPM: Manages heavy electrical loads at low RPM preventing premature battery discharge
- Remote Sense: Drastically reduce battery charge time
- **Brushless durability:** 13 fewer moving parts than a brush-type alternator, eliminating components that wear out while extending product life
- Warranty: 3 years/350,000 miles

### 38SI™ & 40SI™

• Output:

38SI: 12 Volts 215 Amps - 121 Amps at idle

40SI: 12 Volts 240 Amps - 160 Amps at idle

40SI: 12 Volts 275 Amps - 180 Amps at idle

40SI: 12 Volts 300 Amps - 190 Amps at idle

40SI: 12 Volts 320 Amps - 190 Amps at idle

- **Highest output at low RPM:** Manages heavy electrical loads at idle preventing premature battery discharge
- Remote Sense: Drastically reduce battery charge time
- **Brushless durability:** 13 fewer moving parts than a brush-type alternator, eliminating components that wear out while extending product life
- Longer system life: Over spec'ing extends life of alternator
- **Efficiency and power density:** Highest combination in its class, providing substantial fuel savings
- Warranty: 3 years/350,000 miles

## Spec it Right: Kenworth

38MT+ OPTION CODE 1832042 (MX 11/13)\*

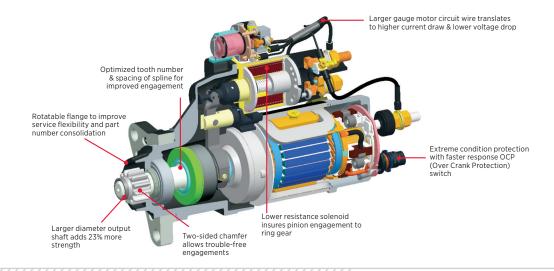

39MT OPTION CODE 1832039 (Cummins)

#### 38MT+™

- Power: 4.3kW peak at 12V
- Over Crank Protection: A built-in circuit breaker, protects the starter from thermal damage, automatically resetting at a safe operating temperature
- Design refinements for optimal performance
- Integral Magnetic Switch (IMS) reduces voltage drop and ensures the solenoid receives the maximum available voltage in any starting condition.
- Improved starter pinion engagement: Redefined electrical soft start reduces wear-and-tear by slowly rotating the pinion until it properly engages into the ring gear before cranking.
- Warranty: Integrated OCP model: 3 years/350,000 miles

#### 39MT™

- Tested and approved for all MX engines
- Over Crank Protection: A built-in circuit breaker, protects the starter from thermal damage, automatically resetting at a safe operating temperature
- Design refinements for optimal performance
- **Improved starter pinion engagement:** Redefined electrical soft start reduces wear-and-tear by slowly rotating the pinion until it properly engages into the ring gear before cranking.
- Warranty: 3 years/350,000 miles
