

BorgWarner Expands Supply of Starter Motors for Hyundai in Brazil

- *Hyundai's New HB20 1.0 T-GDI and Creta 1.6 are now equipped with BorgWarner starter motors*
- *Production takes place at the Brusque, Santa Catarina facility*
- *System delivers 0.9 kW power*

São Paulo, Brazil, October 28th, 2020 – After years of successful collaboration, BorgWarner is expanding the supply of its starter motors to Hyundai in Brazil. The company's PG260A starter motor now equips Hyundai's HB20 turbo T-GDI versions as well as the Creta's 1.6-liter Gamma engine aimed at the people with disabilities.

BorgWarner first began supplying Hyundai with its lightweight starter motors in 2016 on the HB20 1.0-liter Kappa and 1.6-liter Gamma engines.

"Having the opportunity to expand our partnership with Hyundai is a reflection of BorgWarner's solid relationship with our customer, in addition to our exceptional compliance with quality, delivery time and performance standards," said Adson Silva, Director at BorgWarner's Brusque facility. "Hyundai is one of BorgWarner's premier global partners, and we look forward to continuing to supply them with a broad portfolio of cutting-edge, reliable and high-quality technologies that meet their needs not only in the Brazilian market, but in all regions of the world."

Manufactured at the BorgWarner facility in Brusque, Santa Catarina, the PG260A starter motor featuring 0.9 kW power contributes to fuel economy gains and overall vehicle performance. Weighing less than 2 kg, the starter motor uses high-density permanent magnets; compact armature; planetary gears reduction; and 10-to-15-teeth impellers, providing one of the best power-to-weight ratios on the market.

About BorgWarner

developments, as well as other factors we believe are appropriate in the circumstances. Forward-looking statements are not guarantees of performance, and the Company's actual results may differ materially from those expressed, projected or implied in or by the forward-looking statements.

You should not place undue reliance on these forward-looking statements, which speak only as of the date of this Release. Forward-looking statements are subject to risks and uncertainties, many of which are difficult to predict and generally beyond our control, that could cause actual results to differ materially from those expressed, projected or implied in or by the forward-looking statements. These risks and uncertainties, among others, include: failure to realize the expected benefits of the acquisition of Delphi Technologies; failure to promptly and effectively integrate Delphi Technologies' businesses; the potential for unknown or inestimable liabilities relating to the acquired business; our dependence on automotive and truck production, both of which are highly cyclical; our reliance on major OEM customers; commodities availability and pricing; supply disruptions; fluctuations in interest rates and foreign currency exchange rates; availability of credit; our dependence on key management; our dependence on information systems; the uncertainty of the global economic environment; the outcome of existing or any future legal proceedings, including litigation with respect to various claims; future changes in laws and regulations, including, by way of example, tariffs, in the countries in which we operate; and other risks noted in reports that we file with the Securities and Exchange Commission, including Item 1A, "Risk Factors" in our most recently-filed Form 10-K. We do not undertake any obligation to update or announce publicly any updates to or revisions to any of the forward-looking statements in this presentation to reflect any change in our expectations or any change in events, conditions, circumstances, or assumptions underlying the statements.
