

BorgWarner Ranked as Premier Data Supplier in TecDoc Catalog

- *All BorgWarner products represented in database offer best data quality to users*
- *BorgWarner provides more than 42,000 references for customers*
- *Portfolio covers passenger cars as well as heavy duty applications*

Kirchheimbolanden, Germany, November 2, 2022 – As of recently, TecAlliance’s TecDoc Catalog contains six BorgWarner brands of spare parts for both commercial vehicles and passenger cars. BorgWarner is ranked as a Premier Data Supplier, which means that aftermarket customers are provided with the most detailed information and regular updates on product data.

“BorgWarner has been a part of TecDoc for many years, and we are happy to be able to support our aftermarket customers through this useful tool,” said Michael Boe, Vice President and General Manager, BorgWarner Emissions, Thermal & Turbo Systems Aftermarket. “Because over 100,000 passenger car applications have at least one BorgWarner product link, the database supplies valuable references.”

Among the BorgWarner brands included in TecDoc are the previously acquired 3K and Schwitzer representing turbocharger products as well as BERU for ignition coils, glow plugs, and glow plug control units. Additionally, thermostats and a broad exhaust gas recirculation portfolio can be found under the Wahler brand. And finally, BorgWarner all-wheel drive products such as oil, pumps, filters, and sensors are listed too.

TecDoc provides more than 42,000 references to the company’s products, including OE cross references and indirect crosses. BorgWarner’s turbocharger portfolio is covering almost six million cars, and the offering for heavy duty is deployable for more than 28,000 applications.

Forward-Looking Statements: This press release may contain forward-looking statements as contemplated by the 1995 Private Securities Litigation Reform Act that are based on management's current outlook, expectations, estimates and projections. Words such as "anticipates," "believes," "continues," "could," "designed," "effect," "estimates," "evaluates," "expects," "forecasts," "goal," "guidance," "initiative," "intends," "may," "outlook," "plans," "potential," "predicts," "project," "pursue," "seek," "should," "target," "when," "will," "would," and variations of such words and similar expressions are intended to identify such forward-looking statements. Further, all statements, other than statements of historical fact contained or incorporated by reference in this press release that we expect or anticipate will or may occur in the future regarding our financial position, business strategy and measures to implement that strategy, including changes to operations, competitive strengths, goals, expansion and growth of our business and operations, plans, references to future success and other such matters, are forward-looking statements. All forward-looking statements are based on assumptions and analyses made by us in light of our experience and our perception of historical trends, current conditions and expected future developments, as well as other factors we believe are appropriate under the circumstances. Forward-looking statements are not guarantees of performance, and the Company's actual results may differ materially from those expressed, projected or implied in or by the forward-looking statements.

You should not place undue reliance on these forward-looking statements, which speak only as of the date of this press release. Forward-looking statements are subject to risks and uncertainties, many of which are difficult to predict and generally beyond our control, that could cause actual results to differ materially from those expressed, projected or implied in or by the forward-looking statements. These risks and uncertainties, among others, include: supply disruptions impacting us or our customers, such as the current shortage of semiconductor chips that has impacted original equipment manufacturer ("OEM") customers and their suppliers, including us; commodities availability and pricing, and an inability to achieve expected levels of success in additional commercial negotiations with customers; competitive challenges from existing and new competitors including OEM customers; the challenges associated with rapidly-changing technologies, particularly as relates to electric vehicles, and our ability to innovate in response; uncertainties regarding the extent and duration of impacts of matters associated with the COVID-19 pandemic, including additional production disruptions; the difficulty in forecasting demand for electric vehicles and our electric vehicles revenue growth; potential disruptions in the global economy caused by Russia's invasion of Ukraine; the ability to identify targets and consummate acquisitions on acceptable terms; failure to realize the expected benefits of acquisitions on a timely basis; the ability to identify appropriate combustion portfolio businesses for disposition and consummate planned dispositions on acceptable terms; the failure to promptly and effectively integrate acquired businesses; the potential for unknown or inestimable liabilities relating to the acquired businesses; our dependence on automotive and truck production, both of which are highly cyclical and subject to disruptions; our reliance on major OEM customers; fluctuations in interest rates and foreign currency exchange rates; our dependence on information systems; the uncertainty of the global economic environment; the outcome of existing or any future legal proceedings, including litigation with respect to various claims; future changes in laws and regulations, including, by way of example, taxes and tariffs, in the countries in which we operate; impacts from any potential future acquisition or disposition transactions; and the other risks noted in reports that we file with the Securities and Exchange Commission, including

Item 1A, "Risk Factors" in our most recently-filed Form 10-K and/or Quarterly Report on Form 10-Q. We do not undertake any obligation to update or announce publicly any updates to or revisions to any of the forward-looking statements in this press release to reflect any change in our expectations or any change in events, conditions, circumstances, or assumptions underlying the statements.
